Work Experience

Software Consultant - SmartGig Technologies PVT
Hyderabad, Telangana

December 2023 – June 2024

Responsibilities:

- Analyzed business requirements and client needs to formulate strategic website plans, collaborating with UI/UX and graphic design teams to determine website flow.
- Orchestrated the development process using WordPress, adhering to agile methodologies for continuous improvement.

Achievements:

- Elevated proficiency in WordPress development and honed customer interaction skills while leading a dynamic team to successfully execute projects.

Full-Stack Web Developer – HSPM Solutions LLP
Pune, Maharashtra

December 2020 – November 2023

Responsibilities:

- Adapted swiftly to emerging technologies and software applications, ensuring continuous relevance and innovation.
- Demonstrated proficiency in both independent and collaborative environments, identifying website requirements and delivering effective solutions.
- Developed front-end interfaces using a blend of React JS, HTML, CSS, Bootstrap, JavaScript, and jQuery, ensuring optimal user experiences.
- Conducted back-end development, implementing logic and required functionalities using Backend JavaScript, PHP, WordPress, and MySQL.

Achievements:

- Spearheaded initiatives resulting in a 25% improvement in website loading time, a 50% surge in page views, and a notable 35% increase in customer engagement within a span of three months.
- Elevated the efficiency and performance of web projects, contributing to significant enhancements in user experience and overall website metrics.

Projects

Lions International District - NGO Website | January 2023 - June 2023 🔗

Tools: React, Material UI, Redux, Node.js, Express.js, and MySQL

Roles: Crafted web flow, led front-end development, and guided team through full website creation; deployed on VPS Server via GitHub.
